

Journal of  
**Water & Health**

Dear Colleagues,

**Special Issue: SARS-CoV-2 and water**

We would like to cordially invite you to submit your paper to the Journal of Water and Health special issue with regards to SARS-CoV-2 and water. This special issue will gather cutting-edge studies and reviews on the water related health aspects of SARS-CoV-2 transmission including: characterizing the impact of WASH interventions on disease transmission; quantifying the occurrence and fate of SARS-CoV-2 in water/wastewater and wastewater surveillance of SARS-CoV-2 to support public health interventions. Studies from low and middle-income countries are specifically sought and supported. This special issue is in collaboration with Global Water Pathogen Project (GWPP, <https://www.waterpathogens.org/>) and the International Water Association Health Related Water Microbiology specialist group (Health Related Water Microbiology - International Water Association ([iwa-network.org](http://iwa-network.org))).

If you would like to contribute to this special issue, please submit a short manuscript proposal (200-300 words) to Susan Petterson ([s.petterson@waterandhealth.com.au](mailto:s.petterson@waterandhealth.com.au)) by March 31, 2021. You will receive an official invitation letter from IWA Publishing and full manuscripts will be due by the 31st July, 2021. Accepted manuscripts will be published online immediately.

Please let us know if you have any questions on this special issue.

Sincerely,

Guest Editors
